About Us

MetaLogix a woman, veteran owned small business was founded in 2002 and offers solution oriented technology consulting services. MetaLogix is committed to architecting and integrating value- based vision- driven solutions for customers. Our unique blend of senior project managers, technical specialists and application developers; many who have previously served in uniform have extensive experience in the delivery of IT solutions for businesses and major departments and agencies of the government.

Why MetaLogix?

Best-in-Class Service Delivery -- Our talented, committed technology professionals — many of them formerly serving our country in uniform — offer strong experience and unique capabilities in delivering industry-leading solutions while using (and understanding) the latest technologies.

Strategic Partnerships that Matter--MetaLogix is a Microsoft Partner; Microsoft Software Advisor, IBM Services Partner; HP Partner; Dundas Data Visualization, Tech Data VAR, Ingram Micro VAR, Decos Technology Group, MicroStrategy, Lockheed Martin, Metters Inc, Singularity, and Dell partners.
